

# INFRASTRUCTURE LARGE

StrategicERP is a software platform for end-to-end process automation. It is an information management system customized for Real Estate & Infrastructure Industry. The product owes to its cutting-edge core technology developed by a team of IITians. StrategicERP user interface is completely web-based, LAN supported and mobile-based application that is far more flexible, compared to conventional ERP systems offered by branded players.

The software architecture allows to overcome scale limitation and as a result within a short span of its launch the product had made a mark for itself within the SME and large construction and infrastructure industry vertical. Through this product, we strive to deliver a quick streamlining solution for our client's existing business processes through StrategicERP.
