Gain Control and Visibility with Government Solutions

StrategicERP's Financial Management System gathers and processes financial data to generate decision-making reports.

Finance forms are the core of every organisation. It is essential to streamline the finance processes for an organisation to function smoothly.

A centralised system with a common view ensures all team members access a single set of data, thereby increasing visibility across all departments.

StrategicERP has developed a range of finance functions to efficiently manage Government business processes:

1. Accounts Payable including Stock management- Manage invoice and payments of vendors coupled with stock ledgers and reports.
2. Accounts Receivable- Manage financial transactions with customers
3. Finance Management- Maintain ledgers, Balance sheets and reconcile with Bank statements
4. Statutory Management- Integrated regulatory and Tax compliance

StrategicERP (S-ERP)

StrategicERP is used by hundreds of organizations to manage their accounting needs. This software accelerates your financial closing, provides strong expense management, offers streamlined and auditable revenue management and ensures complete real-time visibility into the financial performance of the business.

Key Features

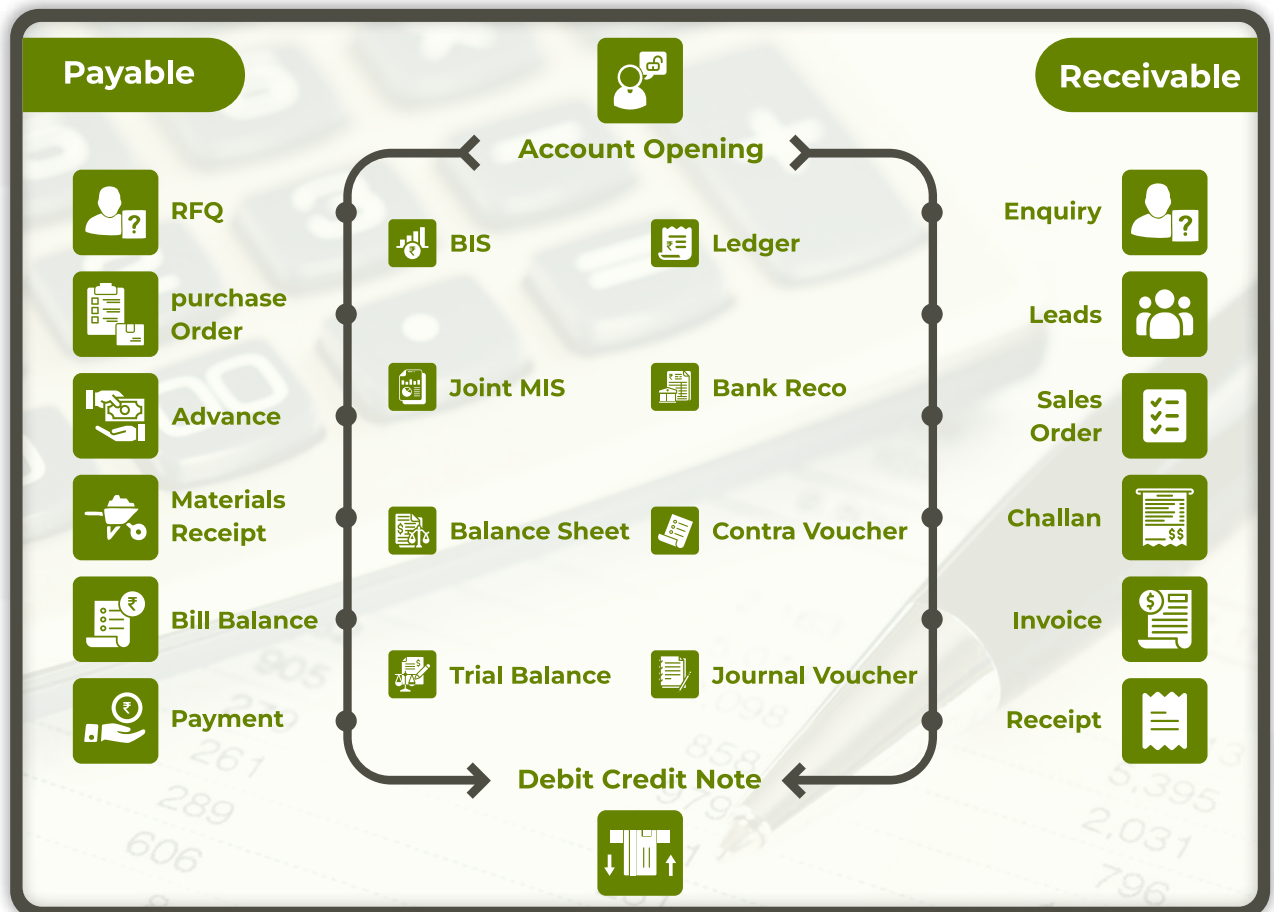

- Automates tax compliances posting like TDS, Service tax, VAT, SBC.
- Integration with Tally and Financial Statements.
- Comprehensive Financial report based on Defined Cost Center with Option of Joint MIS.

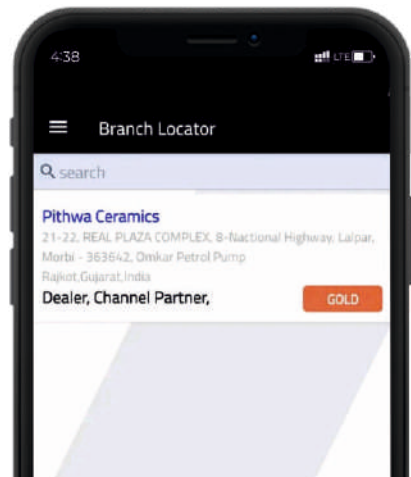

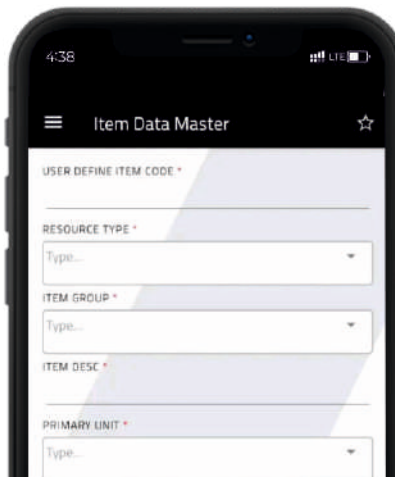

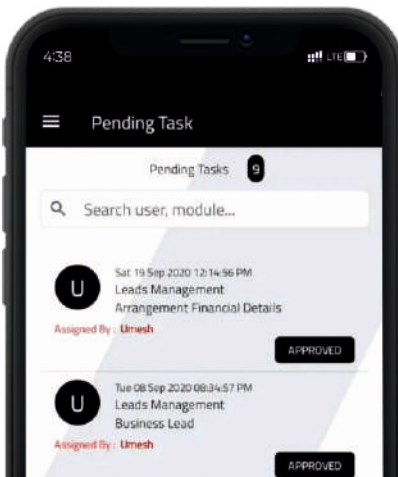

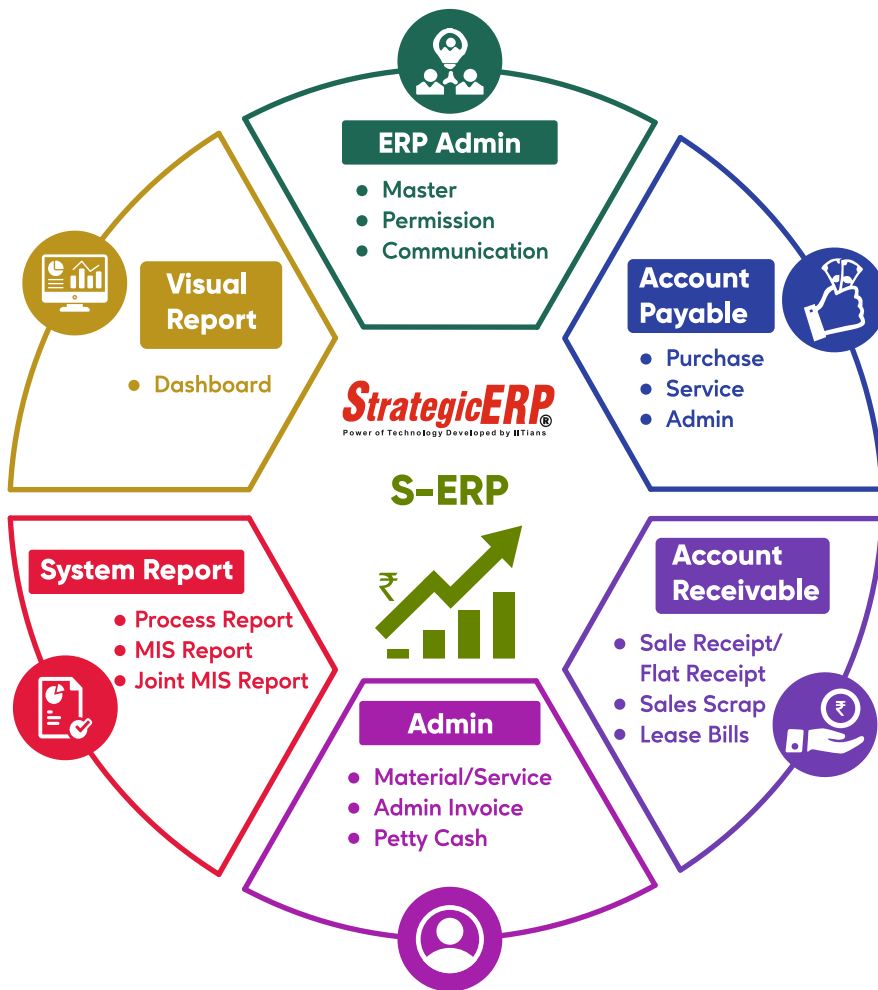

Advantages of S-ERP

- View management reports about current business operations in real time.
- Get the most accurate and up-to-date analysis by generating management reports from the same transactional data used for financial statements.
- Through MIS ledger & Joint MIS report, equip managers with the financial information in business terms to help them make better informed decisions.
