SMART CITY ERP: CLOUD-BASED SOFTWARE FOR SMART CITY MANAGEMENT

An efficient approach to constructing and managing a smart city brought to you by StrategicERP who have been solving complex challenges of the Real Estate & Construction Industry for more than 15 years.

- ☑ **Employing Smart Solutions**
- ☑ **Advanced Infrastructure**
- ☑ **Enhanced Quality of Life**
- ☑ **Environmental Sustainability**
- ☑ **Creating a habitat that promotes a progressive culture of development and better living**

A Readily Optimized Comprehensive Solution For Smart Urbanization

Smart City is the next step in the evolution of urbanisation. Smart City is the way to go in the quest for evolving into a next-generation City that leverages technology for the ultimate living experience. Infrastructure and Real Estate Developers have a huge role to play in Smart Cities as without the basic structures and facilities, it will be impossible to make any of it possible.

Many Infrastructure and Real Estate developers have recognised this need to create Smart Cities for better and affordable living for the citizens. With more and more Indians desiring to move to cities and areas that are more technologically forward and progressive, there is enormous scope, as well as opportunities for the Real Estate and Infrastructure Industries. It is crucial to recognise and leverage modern methodologies with the help of technology that will help to build Smart Cities that will ensure the best possible living experience.
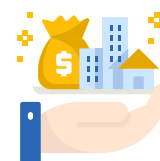

StrategicERP's Smart City solution is a modular software solution designed to enable Smart City programs to achieve social, economic, and environmental sustainability. It leverages the latest technology to take maximum advantage of today's technological advancements and capabilities for efficient operations and enhanced output. Our software provides actionable insights and facilitates the efficient delivery of services with adept management of city assets.

SMART CITY SOFTWARE SOLUTION FEATURES:

Waste Management:
Smart city ERP solution facilitates the collection of solid waste through sensor fitted waste containers enabling disposal and tracking of solid waste.

Financial Accounting Management System:
Smart city ERP software manages finance and accounting with features such as auto-payment requisition, auto BRS (bank reconciliation statement) by uploading the bank statement into the ERP software, expenditure management, book-keeping, and budgeting.

HR & Payroll Management:
Daily attendance of workers with location tracking, complete recruitment process, payroll management with statutory compliance are covered in the Smart City ERP software.

Healthcare Management:
AI-based ERP software Smart Cities provide access to the current medical condition of patients, automation in the analysis of medical tests, and assist with medical consultation.

Land and Estate Management:
Automate and ease processes such as land acquisition, rent collection, allotment of property, planning, and inspection. StrategicERP smart city software platform is developed to run fast track development.

Inventory Management:
Inventory management module offers improved inventory reports, stock ledger, inventory forecasting, and tracking of medical, electrical, and general inventory across multiple warehouses.

Secretary Management:
The Secretarial Management module streamlines secretarial practices like preparation of agenda, creation of resolution, setting reminders for upcoming meetings, compliances of the meeting.

Birth and death certificate management:
This module covers services such as the automatic generation of issue, re-issue, and registration of birth and death certificates.

Legal Cases Management:
ERP software for Smart City takes care of legal cases in an organized manner. It handles and manages the legal affairs & documents in digital form, providing a handy way to access the information swiftly.

Fire Protection Management:
Smart City ERP keeps track of all your tools on one single software and sends you a reminder for the regular inspection and maintenance of your fire safety equipment.

Audit Management:
StrategicERP keeps the corporate information of the smart city and generates auditing reports as and when needed

Hawkers & License Management:
Smart City ERP automates the processing of legal licenses of vendors and hawkers. It ensures the legal recognition of hawkers in a smart city with compliance to the Street Vendors Act.

Digital Dashboard:
StrategicERP offers a centralised platform for a comprehensive view of multiple aspects such as financial information, secretarial data, auditing reports, inventory reports, status of internal IT assets, and more.

Web Portal Platform:
Smart city ERP software acts as a platform for citizens for various needs such as Grievance/Complaint Management, Sanitation services, Incidence Reporting, and more.

Vehicle Maintenance:
Smart City ERP software keeps track of vehicle condition and carries out the processing of general maintenance and preventive maintenance.

IT Assets Management:
Smart city software facilitates IT inventory management that stores the hardware and software inventory information which enables the management team to make faster decisions about purchase and repairs.

Disaster Management:
Smart City software solution helps in faster response and communication to citizens in catastrophic situations such as earthquake, flood, tsunami, etc.
